

# Staying Healthy is as Important as Getting Well

## PREVENTIVE CARE COVERED BY ACA

### What you need to know

*When you enroll in a Health Net health plan, you get benefits and services under the Affordable Care Act (ACA).*

*This flyer gives a summary of preventive services and well-child care covered by the ACA. With this overview, you and your doctors can talk about your need for preventive care to keep you on a healthy path.*

### No deductible or copayment

When you and your family enroll in a health plan subject to the ACA, you have no deductible or cost share for preventive care services. You must get your preventive care from an in-network provider.

**Please note:** Some health plans are not subject to this ACA rule, and you may pay part of the cost for your care. Services you get from an out-of-network provider may not be covered.

*(continued)*

**Check your plan documents for details about your benefits.**

You can also find all the details about covered services at [www.healthcare.gov](http://www.healthcare.gov).

## Preventive drugs

You may be covered for preventive drugs\* prescribed by your doctor and for those found over-the-counter. Examples of covered medication include:

- **Aspirin** to prevent cardiovascular disease and also for preeclampsia prevention in pregnant women.
- **FDA-approved** birth control methods and breast cancer preventive medication for women.
- **Drugs** to help you quit tobacco.
- **Folic acid** for women pre-pregnancy.
- **Iron supplements** for children at increased risk for iron-deficiency anemia.
- **Oral fluoride supplements** for preschool children where the water source does not contain fluoride.

You may pay more in cost-sharing on brand-name drugs only when a generic version is available.

**Note:** Your doctor must prescribe these items under pharmacy benefits.
